

UBTS-HP High Power Burn-in & Test System

Industries

MAIN FEATURES

- ▶ Burn-in & Test System for high power devices
- ▶ Independent electrical/pattern zone for each single BIB slot
- ▶ Based on UBTS PTDM (Pattern Test Driver Module)
- ▶ Pattern generation, test program execution and test functions for each single BIB slot
- ▶ High Power Module for each BIB
- ▶ 6 independent programmable plug-in power supplies per BIB
- ▶ 16 independent high power supplies per BIB
- ▶ Total power of up to 1600W per BIB
- ▶ Up to 640A per BIB
- ▶ Voltage control for each DUT
- ▶ Current monitoring for each DUT
- ▶ Independent temperature regulation and monitoring for each DUT
- ▶ High power sockets control logic fully integrated
- ▶ Ethernet network architecture
- ▶ User friendly Software interface
- ▶ Test Pattern Conversion software
